

SUMMARY

MERN (React.js, Node.js, MongoDB, Express.js) Stack Developer, I specialize in full-stack web development. I bring expertise in designing and implementing scalable and efficient server-side applications using Node.js and Express.js. My proficiency extends to front-end development with React, creating dynamic and responsive user interfaces. I have a strong foundation in database management, particularly with MongoDB, and can leverage these skills to deliver robust and high-performance web applications.
